Name: _____

Draw the Other Half

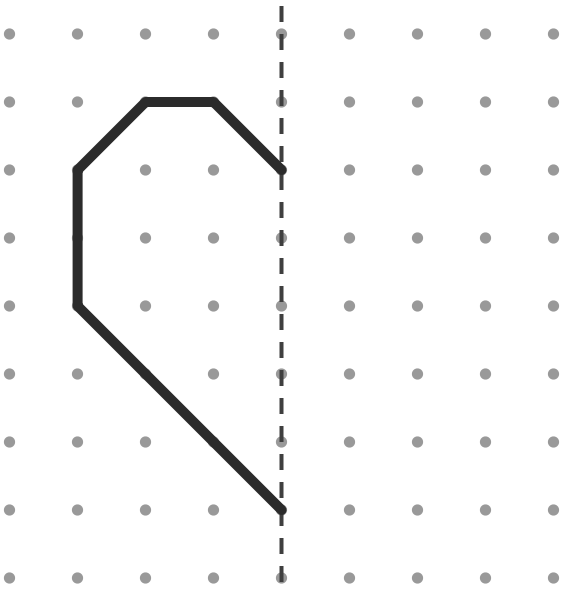

The pink dashed line is a mirror. Copy each line onto the other side, dot by dot, to finish the picture.

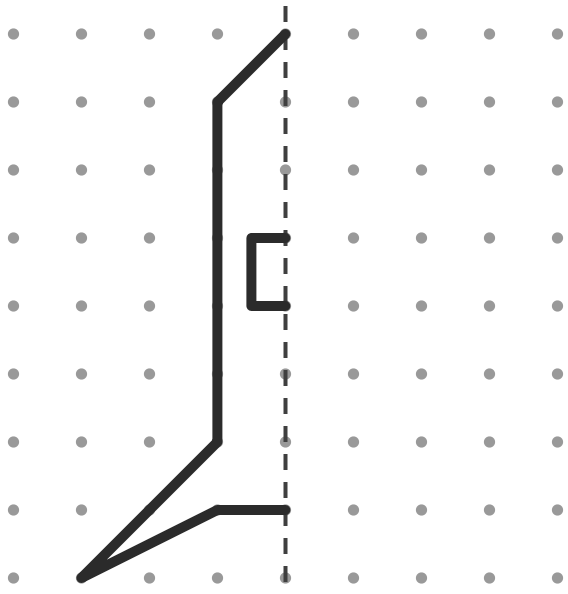

tree

house

heart

rocket

💡 **For grown-ups: why it works.** Mirror drawing is early geometry: children count dots across and down to copy each line, which builds the spatial sense used in math and in placing letters on a line. Counting out loud ("two dots over, one down") helps.
