Name: _____

🎃 Pumpkin Feelings

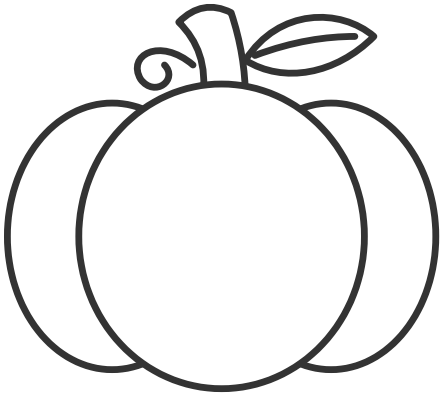

Read each feeling word with a grown-up. Draw a face on each pumpkin to show that feeling. Then make the face yourself!

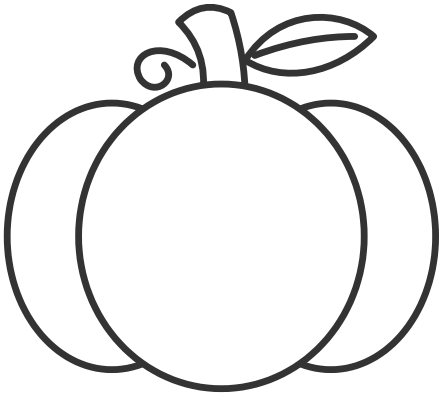

😀 happy

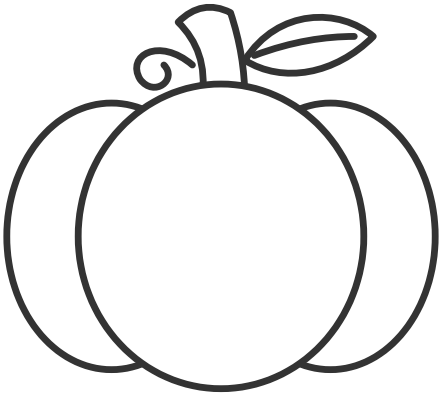

😢 sad

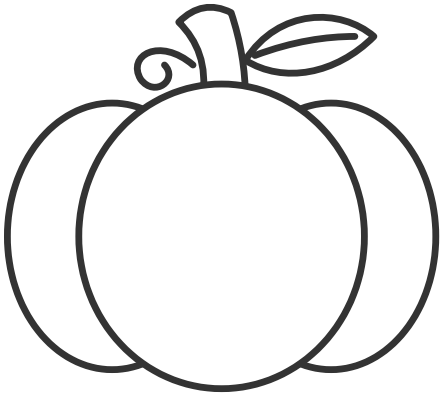

😜 silly

😴 sleepy

😮 surprised

😠 mad

💡 **For grown-ups: why it works.** Naming feelings and showing them on a face helps children recognise emotions in themselves and others, a skill tied to calmer behavior. Ask: when did you feel sleepy or surprised? Making the faces together is half the fun.
