Name: _____

🙏 My Thankful Turkey

Draw something you are thankful for in each feather. Then trace the words and finish the sentence.

I am thankful for

Write or ask a grown-up to help.

💡 **For grown-ups: why it works.** Talking about what we are grateful for is linked to happier moods in children, and drawing first gives every child something to say before writing. Let your child tell you the words; it is fine to write them dotted so they can trace.
