 Name: _____

The ABC Train

Some letters fell off the train! Sing the ABC song and point to each car. Write the missing small letters in the empty cars.

For grown-ups: why it works. Knowing what comes next in the alphabet helps with letter names and, later, dictionary skills. Writing the missing letters means recalling each letter's shape from memory, which builds stronger memory than copying. Missing: c, f, j, m, p, s, v, y.
