Name: _____

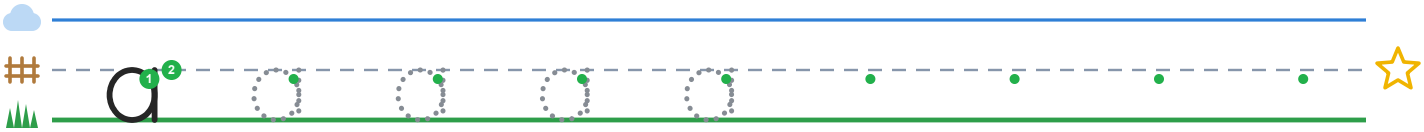

# Magic c Letters: c a d g o q

All of these letters start with the same magic c move. Make a c first, then add the rest!

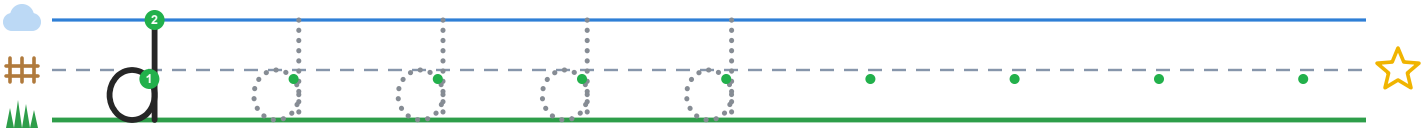

**c**: Start just under the Fence. Curve up, back and around. Stop.

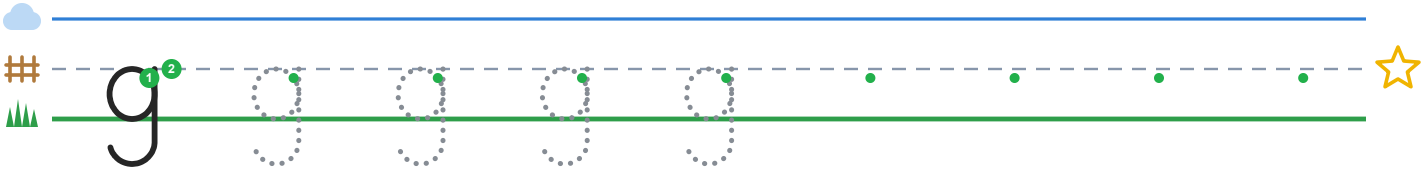

**a**: Magic c, then up to the Fence and straight down.

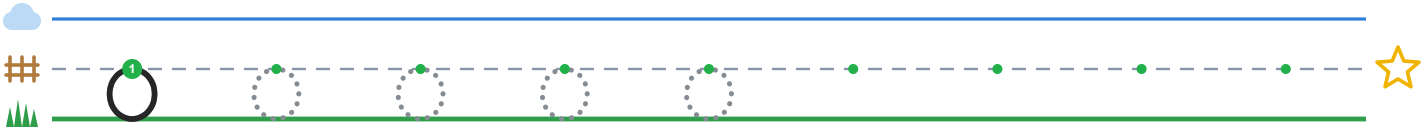

**d**: Magic c, then way up to the Sky and straight down.

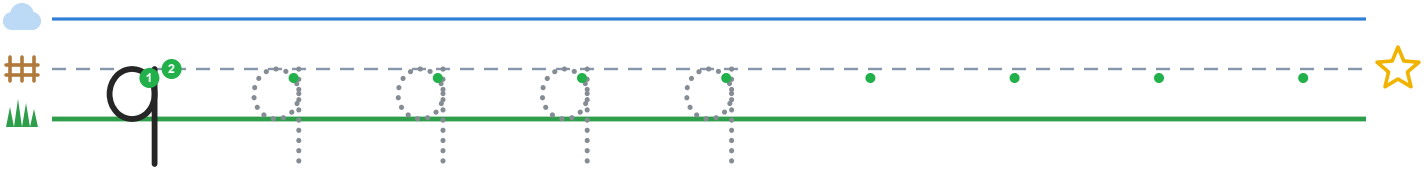

**g**: Magic c, up to the Fence, down below the Grass, and hook.

**o**: Start at the Fence and go back around like c, all the way to close it.

**q**: Magic c, up to the Fence, then straight down below the Grass.

💡 **For grown-ups: why it works.** Teaching a, d, g, o and q as "c plus one more stroke" gives them all the same starting point, which prevents the most common mistake: starting round letters at the bottom or going clockwise. It also makes b and d less confusing later.
