 Name: _____

⚖️ More or Fewer?

Count each group. Circle the one the question asks for. The last two have no pictures: which number is bigger or smaller?

1. Circle the group with MORE.

 or 

2. Circle the group with FEWER.

 or 

3. Circle the group with MORE.

 or 

4. Circle the group with FEWER.

 or 

5. Circle the BIGGER number.

8 or 6

6. Circle the SMALLER number.

3 or 9

Tip: draw lines to pair up pictures one-to-one. The group with pictures left over has more!

💡 **For grown-ups: why it works.** Comparing amounts is the root of "greater than" and "less than". Moving from pictures to plain numbers checks that a child knows 8 is more than 6 without counting. Pairing pictures one-to-one is a proof children can do themselves.
