 Name: _____

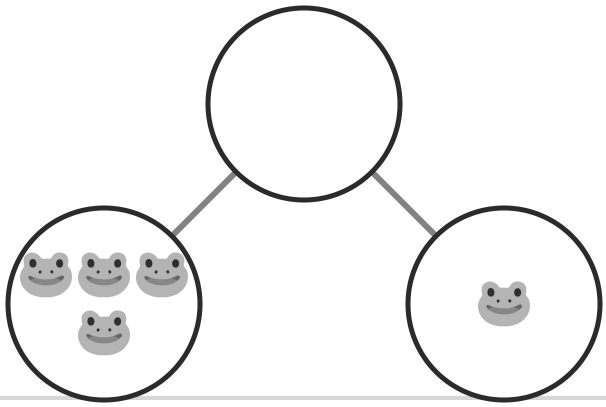

🔗 Number Bonds to 5

The top circle is the whole. The two bottom circles are the parts. Fill in the empty circle with a number (or draw pictures)!

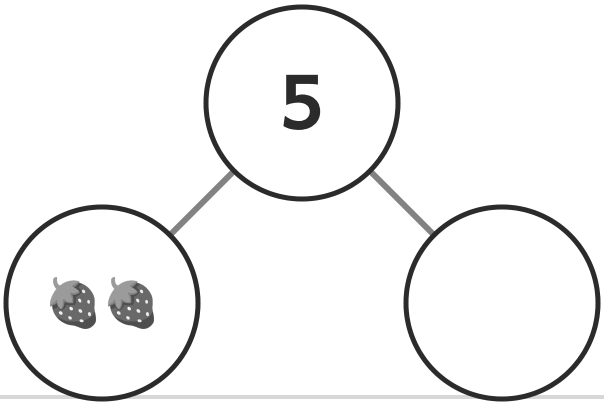

1

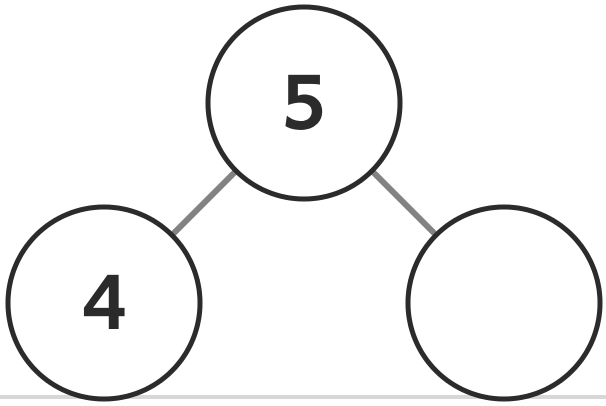

2

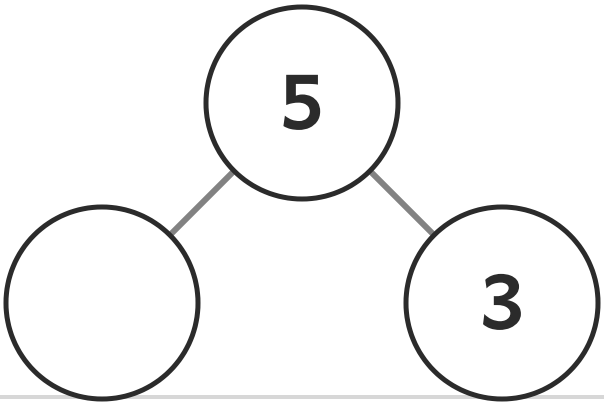

3

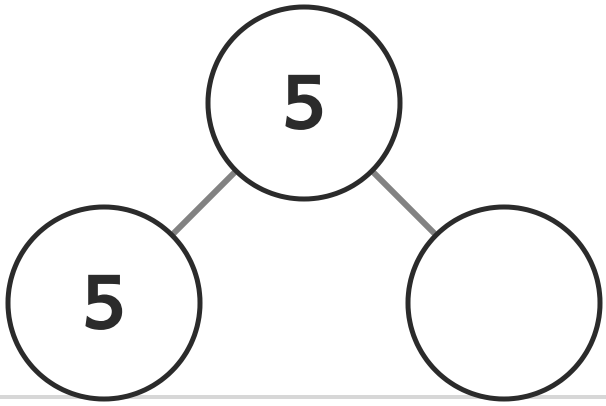

4

5

6

💡 **For grown-ups: why it works.** A number bond shows that 5 can be split into parts (3 and 2, 4 and 1). This part-whole idea is what makes adding and taking away the same skill. Pictures come first, then numbers. The last one is a puzzle: 5 and 0!
